

Inspiration book

Decades of artwork, a visual journey

phil
&flo

Dear reader,

We are proud to present this inspiration book: a visual tribute to our extraordinary journey through the world of animation. Since 2009, we have been crafting bold stories with a team of talented designers, animators, and medical specialists.

Each design on these pages reflects not only the craftsmanship and creative imagination of our team, but also the invaluable insights and collaboration of our clients.

Over the years, we have had the privilege of serving more than 800 clients, achieving over 37 million video views, driving tens of millions in sales for our clients, and creating meaningful societal impact for our medical, pharmaceutical, and non-profit partners.

As we look ahead, we fully embrace the power of AI to elevate the quality of our work for decades to come, keeping your content fresh, relevant, and future-ready, without ever losing the passion and human insight that define us.

This collection is both a celebration of how far we have come and a glimpse into the exciting paths that still lie ahead. A heartfelt thank you to our incredible team, whose talent and dedication have made all of this possible.

With gratitude,

Peter & Suzan, Co-founders

Strategy

Success starts with a clear strategy. We truly understand your business and translate even the most complex concepts into clear, powerful visualisations.

Together, we define your unique positioning, understand your audience, and craft a plan that delivers results.

Creation

2D, 3D, and interactive animation, Virtual Reality, holograms, and AI are the tools we use to bring your story to life.

Our creative team crafts unique, tailor-made visuals that strengthen your brand's presence, making a real and lasting impact on your audience.

Premium Quality

Our animations are built to endure and remain relevant and powerful for up to 14 years, with an average active use of 7 years, delivering lasting value.

Through continuous investment in the latest technologies and knowledge, we ensure top-tier quality for you.

Contact

Ready to take your organisation to new heights in strategy, visibility, and branding? Our team of talented designers and animators is eager to help you achieve your goals.

Get in touch, we would love to hear your story.

Excellent client ratings

I am absolutely delighted. They perfectly understood my vision and translated it into a beautiful visual design. They are creative, swift, and deliver work of the highest quality. I am extremely pleased with the result and would most certainly recommend them!

A great team to work with! They have a strong understanding of the client's needs and adapt swiftly to short timelines and efficient workflows. Moreover, the quality of the 3D hologram animation is exceptionally high.

An excellent company that, in our case, delivered a 2D animation video within a very short timeframe, exactly as we had envisioned. They were also highly thoughtful and proactive throughout the production process!

Phil & Flo supported us superbly in creating two fresh and informative animations. The collaboration went smoothly, they listened carefully to our input and transformed it into excellent animations. We are very pleased with the outcome.

Trusted by 800+ clients worldwide

3D animation

When you need to showcase complex products, technologies, or ideas, 3D animation is the ultimate tool. It's the most realistic form of animation, allowing you to present intricate details in a way that feels natural, clear, and engaging.

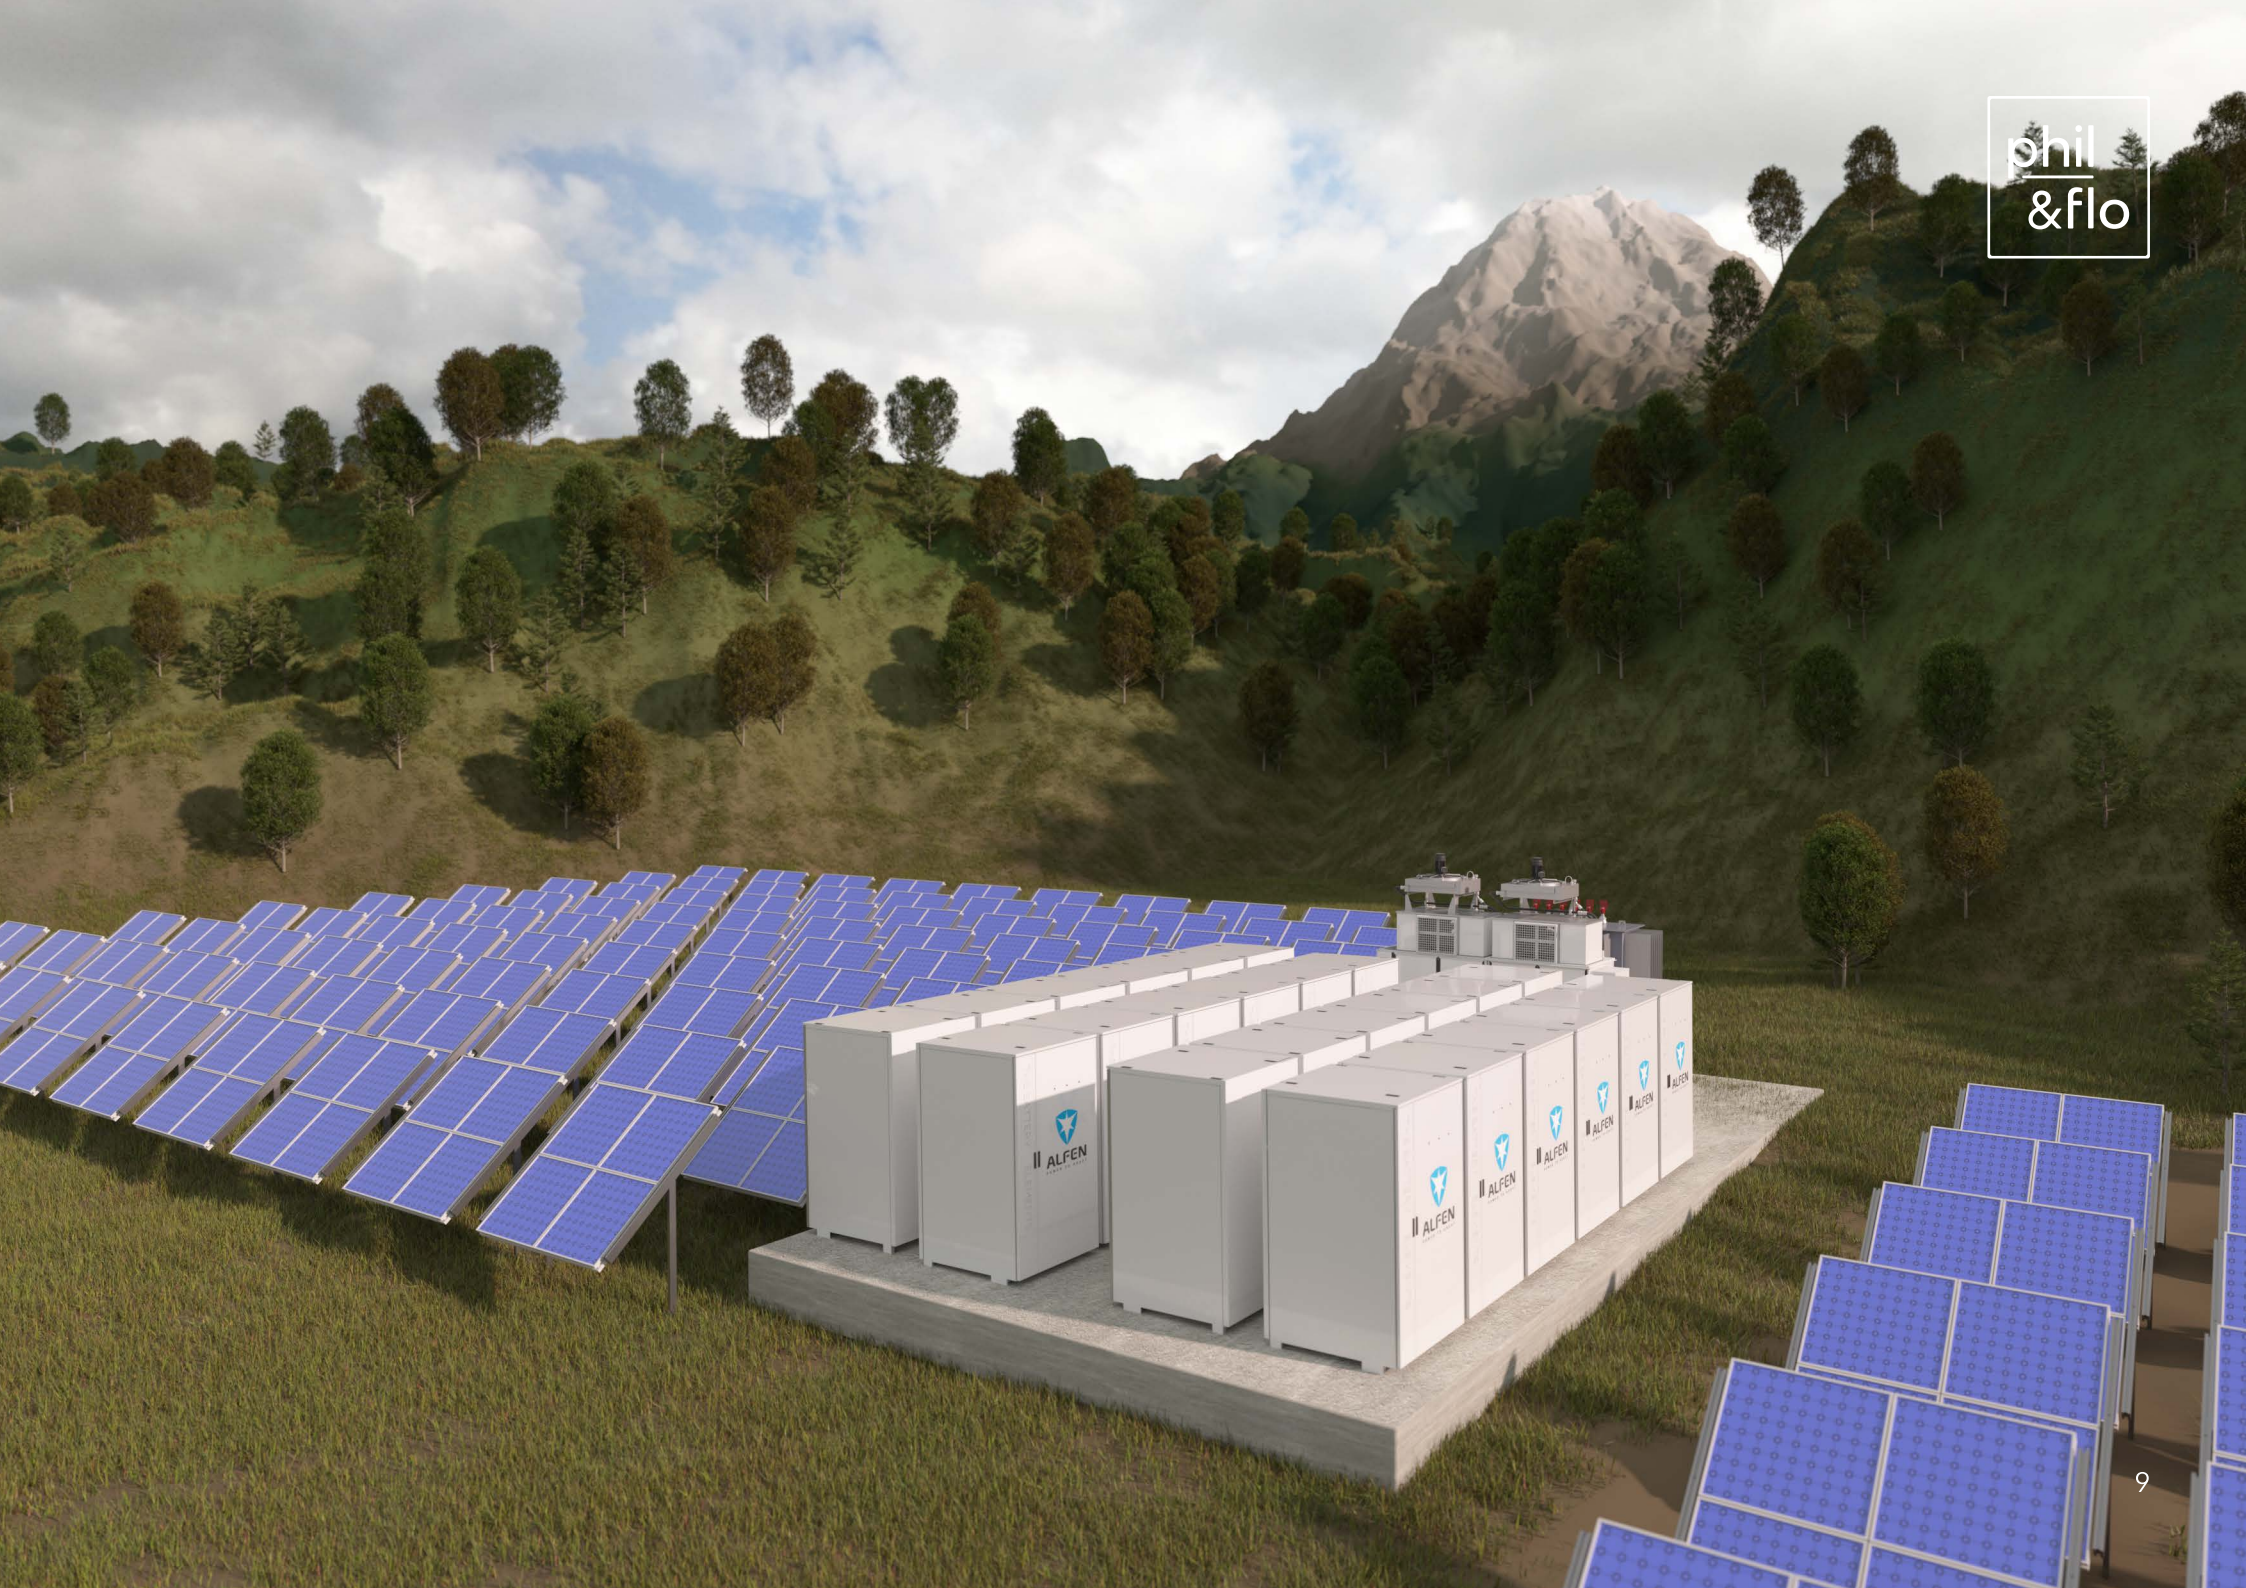

We do not merely animate objects, we create entire worlds around them, tailored to your story and audience.

Every 3D animation we produce is built from the ground up: custom-designed landscapes, fully modelled products, and realistic movements that place your solution in the perfect context.

And it does not end there. Once we have created your 3D world, we can expand it into VR experiences, AR applications, holograms, and more, unlocking a whole new dimension of interaction and impact for your brand. Trusted by hundreds of organisations, our 3D films help clients simplify the complex, drive understanding, and create lasting impact, both online and at events.

2D animation

If you are looking to explain a process, promote your service, or clarify a complex topic, 2D animation is one of the most effective ways to do so.

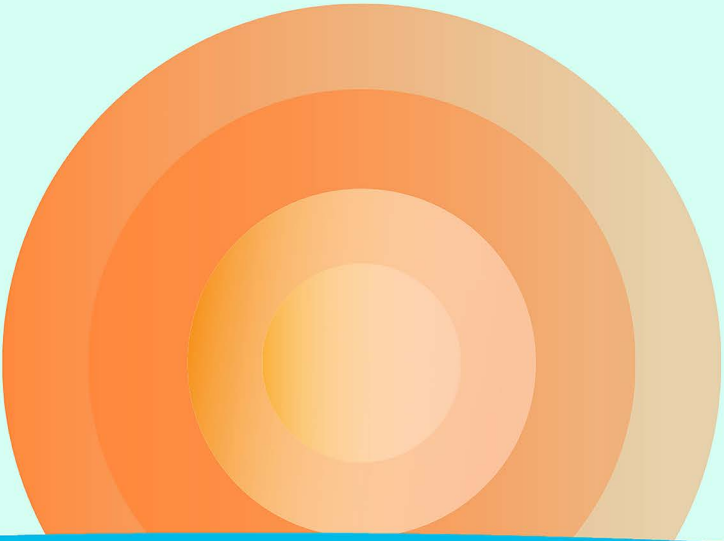

Our clients have reached millions with clear, creative animations that remain relevant for years. We do not use templates or shortcuts, every animation is crafted from scratch, tailored to your brand, your audience, and your message.

You receive a unique visual style, a script written specifically for your objectives, and a film that looks and feels like you. That is why more than 800 clients have trusted us to tell their story, and why so many of them continue to return.

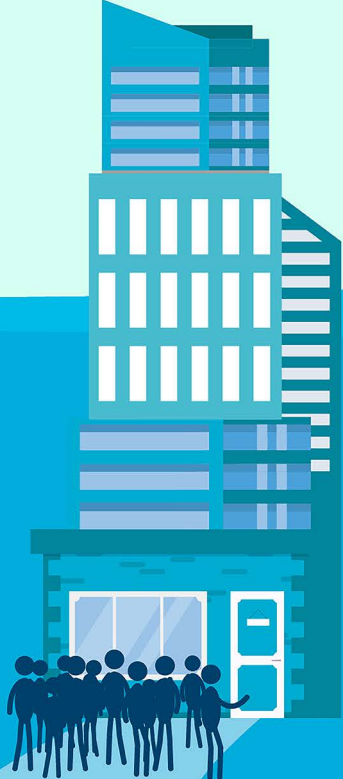

Because your message deserves more than just attention, it deserves to be remembered.

This book celebrates the worlds we've created and offers a glimpse into the future we are shaping with new technologies, without losing the human insight and passion that define us.

Since 2009, we've been bringing bold ideas to life through 2D and 3D animations, interactive experiences, VR, AR, holograms, and AI-driven storytelling.

With over 800 clients, more than 37 million views, and animations that stay powerful for up to 14 years, we know what it takes to make your message stick.

Every visualisation is built from scratch. Whether you want to explain complex ideas, inspire your customers, or drive real-world results, we blend creativity with strategy to make an impact.

Welcome to a world where your story takes center stage. Be inspired.
